SUSTAINABILITY

We are aware of the climate change and resource scarcity. We are constantly reducing our energy consumption and using existing energy more and more efficiently, for example through new LED lighting in our factories.

Solar energy & Environment we have installed solar plants on all the roofs of our factory buildings in Yenice/İNEGÖL. These systems generate clean solar electricity that is fed directly into our production processes, This system controls and monitors the flow of electricity in the company and ensures that the solar power is used as efficiently as possible.

SÜRDÜREBİLİRLİK

İklim değişikliğinin ve kaynak kıtlığının farkındayız. Enerji tüketimimizi sürekli olarak azaltıyor ve mevcut enerjiyi giderek daha verimli kullanıyoruz; örneğin fabrikalarımızda yeni LED aydınlatma sistemleri kullanıyoruz.

Güneş Enerjisi ve Çevre Yenice/İNEGÖL'deki fabrika binalarımızın çatılarına güneş enerjisi santralleri kurduk. Bu sistemler, doğrudan üretim süreçlerimize beslenen temiz güneş enerjisi üretiyor. Bu sistem, şirketteki elektrik akışını kontrol ediyor ve güneş enerjisinin mümkün olduğunca verimli kullanılmasını sağlıyor.
